@cihs_raiders

Greeting Raiders,

It is my honor to welcome everyone back for another great year at the Islands! I am deeply committed to the success of the students and community we serve and look forward to meeting and working alongside each of you.

On August 17, 2022, we were excited to have our campus filled once again with the learning and laughter of our students. It is our mission to help every student feel welcomed, safe, successful, and a part of our Raider family. Additionally, we strive to challenge each student to grow their academic abilities and to be college, career, and life ready at the end of their four years. At Channel Islands High School, we have phenomenal teachers, counselors, Student Wellness Specialists and staff who are dedicated and determined to help each student attain Prosperity. Everyone on our campus plays a vital role in providing each student with inquiry driven and equity based experiences while simultaneously focusing on their wellbeing. More detailed information is provided on our website <https://www.channelislandshigh.us/>.

In addition to welcoming our students, we look forward to welcoming parents and family. Channel Island High School is dedicated to building strong partnerships with families and communities and we invite you to become involved through our parent organizations such as the School Site Council (SSC), Parent Faculty Student Organization (PFSO), Athletic Boosters or the English Learners Advisory Council (ELAC).

Together, as a community of students, parents, teachers, and staff, we will make Channel Islands High School an even stronger institution that everyone will continue to be proud of.

GET TO KNOW OUR NEW ASSISTANT PRINCIPAL

- 
- My Gillespie ancestors are Scottish and came to America in the early 1800's. In 2017 I went to Scotland and found the grave of my great-great-great grandparents.
 - Both my parents were born in Washington state, and my father moved to California when he got hired right out of college to work at Point Mugu.
 - I was born and raised in Port Hueneme and graduated from Hueneme High School.
 - After graduating high school, I served in the US Army Military Police and thought about becoming a police officer after that.
 - I have been skydiving twice.
 - I started dating my high school sweetheart 39 years ago and have been married to her for 29 years.
 - We have a daughter, a son, and two grandsons.
 - My spirit animal is hummingbirds, and I often sit in the backyard and talk to them. Sometimes they'll fly right up to my face.
 - I love reading books and watching films about stories of survival in extreme situations. It shows how amazing the human spirit is.
